

# CARDIOVIT CS-104

The integrated stress test system

**SCHILLER**  
The Art of Diagnostics

# CARDIOVIT CS-104

Everything you need in  
one system:

- Wireless ECG acquisition
- Optional ultrasound spirometry with SpiroScout SP plus
- Integrated workstation for data review

## ALL POSSIBILITIES IN A SINGLE SYSTEM

- Resting ECG with the SCHILLER ECG analysis program ETM as well as ETM Sport, the automatic interpretation for athletes
- Resting rhythm recording up to 60 minutes, with optional arrhythmia detection
- ECG Framer: 10-second resting ECG from resting rhythm
- Exercise stress test with optional arrhythmia detection
- Pharmacological stress test

- Vector ECG (optional)
- Spirometry, based on the ultrasound technology of the SpiroScout SP plus (optional)

## WORKSTATION FOR DATA REVIEW

The CARDIOVIT CS-104 provides extensive review and editing features as well as final report preparation. Both can be examined, data locally acquired and recordings from other SCHILLER resting ECG devices and exercise stress test systems connected to the SCHILLER Server. Bi-directional connectivity (including worklist and PDQ) to EMR, HIS, and PACS systems is given.

## WIRELESS ECG

The optional wireless module MS-12 blue greatly simplifies ECG acquisition, allowing the user to freely operate in any environment and minimising motion artefacts. Whether lying down or running on the treadmill, the patient can move freely and will hardly notice this small and lightweight device (115 g).

## SWISS QUALITY - READY-TO-USE

The unit includes a PC, a monitor, a trolley, and a wireless (MS-12 blue) or wired (MS-12 USB) acquisition module. Optionally, the CARDIOVIT FT-1 can be used for ECG acquisition. Everything is pre-installed and tested by SCHILLER, ready to be used in the clinical practice.

CARDIOVIT CS-104 is also available as resting ECG PC software, with optional stress test and spirometry add-ons.

Ultrasound spirometer  
SpiroScout SP plus

Intuitive and customisable user interface:

- Choose from different ECG views
- Turn trend charts on or off
- Select action buttons

Working height adjustable from 88 to 122 cm with a spring mechanism

Small but powerful wireless ECG acquisition module with on-screen signal view and hook-up advisor

Transparent bin to store and transport medical items

Easy-glide wheels to smoothly manoeuvre the trolley
